## fax bet : bets online in the federation lottery

The star of the Los Angeles Dodgers Shohei Ohtani took another step towards the first season 50-50 in the history of Major League Baseball (MLB) on Wednesday.

The MVP twice in the AL had an explosion of two runs for Miami Marlins Darren McCaughan in the third inning during the opening of the series, which ended with a triumph 11-9 for the Marlins.

With 48 home runs and bases stolen, Ohtani is now tied with Adrian Beltré for the second highest number of home runs in a single season in the history of the Dodgers. Shawn Green who hit 49 home runs in 2001, holds the franchise record...

At the start of this week, Ohtani became the first player to reach 130 home runs and register 85 extra-base hits (XBH) and 45 stolen bases in a single season. He was also Hugh Duffy as the only other player who managed to do this: he hit 85% XBH with 48 steals in 1894 while playing for the Boston Beaneaters.

The Japanese superstar needs only two home runs and two stolen bases to become the first player 50-50 in MLB – a feat that would firmly place him among the great names of the sport.

"There is no pressure", said Ohtani through an interpreter, for MLB.com. "(I am) just trying to maintain the quality of my batting without worrying about the situation that I have tried to do for so long in this season".

Although he does not believe that Ohtani is feeling the pressure to become the first player 50-50, Dave Roberts said: "I think this is a matter of mind."

"I feel that this is a little natural. I think he just wants to finish this, but the fact is that he is still trying to compete and help us win baseball games."

After the victory, the Marlins manager Skip Schumaker said that Ohtani is "probably one of the best players of all time".

"He can do anything, and he is rehabilitating himself", said Schumaker before the game.

The star of two seasons Ohtani was not injured during his recovery from surgery on his elbow, but Roberts still excluded his return to the field for the season during the 30 years.
