Roulette is one of the most popular casino games. It's no surprise that online casinos have different variations of roulette. The game is a good gambling with stakes sometimes so high that players with each new wheel spin become literally poor or rich.

There are three main variations of roulette you can play almost in any casino:

European, American and French Roulette.

European Roulette

European roulette has 37

sectors on the wheel, which are numbered from 0 to 36. The sectors are painted in red and black. 0—zero — colored green. In European Roulette there is only one zero, it is called sometimes as “roulette with one zero.” The game rules are simple: the player tries to guess which sector the ball stays after the wheel stops spinning. Players place bets before the croupier spins the wheel and rolls the ball.

You may place the

straight bet to a single number, cover several numbers, make a color bet, even/odd and so on. The European Roulette rules are simple, easy to learn and nice to play. The gaming house edge in European Roulette is much lower than that in American Roulette, due to a single zero. That is, the chances that the ball stops at the number other than the zero are about twice as high.

There are so-called inside and outside bets. It is

convenient for players to differentiate them. The establishment may set the minimum and maximum bets for a gaming table. Thus, the player can immediately choose for himself the comfortable game level. And, do not forget: once the wheel starts spinning, bets are no longer accepted.

American Roulette

The American Roulette wheel is divided into

38 sections. There are numbers from 1 to 36 and also 0 and 00. After the players placed their bets, the dealer spins the wheel and polls the ball. The ball stays at a split on the wheel and the dealer calls the winning number and color.

The numbers on the

American Roulette wheel placed so that anyone has equal chances to be a winning number.

There are inside and outside bets on the playing field. The gaming house edge in

American Roulette is twice as higher than in European Roulette due to double zero. You can use some strategies while playing, such as Martingale or Fibonacci. It is the same as in European Roulette. The odds of winning are less than in European Roulette, because of a double zero. Therefore, players like American Roulette online much less.

#### French Roulette

French Roulette does not differ much from American or European Roulette. There are 37 sectors on the French Roulette wheel, and they are numbered from 0 to 36. Numbers from 1 to 36 are colored red and black, and zero is green. The gambler tries to guess which split the ball stays after the wheel stops spinning and place the bet.

The main peculiarity of French Roulette is the game table design: all signs are in French only. And French Roulette has its unique "La Partage" rule. According to the rule, if the ball stays at zero, the equal chances bets lose only half.

##### Variations

These three roulette variations are typical for brick-and-mortar casinos.

Online casinos usually have more variations to satisfy any demand of their customers.
